

25 March 2010

**To the kind attention of the children -and parents-  
affiliated with the Japan Private Kindergarten Association**

On behalf of the World Health Organization, I would like to transmit to each and every one of you our most sincere thanks for your personal contribution to help children and their families who have been affected by the devastating earthquake that struck Haiti last January.

We are very impressed by your generosity and your commitment to health. The funds collected will be used to ensure that Haitian children and their families can receive the health services they need during this difficult time and, especially, to provide medical attention to pregnant women so they receive adequate health care during pregnancy and at the moment of giving birth to their babies.

It is thanks to your commitment that we can carry out these emergency activities. We highly appreciate your support and warmly thank you for your personal help.

With my best wishes to you and your families,

Dr Eric Laroche  
Assistant Director-General  
Health Action in Crises  
World Health Organization
